Analytics & Tracking: GA4, GTM, Meta Pixel, Google Search Console, Search Performance Monitoring

Deployment & Infrastructure: VPS Hosting, Netlify, Cloudinary, Domain Configuration, Deployment

Tools: Git, GitHub, Postman, Browser DevTools

WORK EXPERIENCE

The Luxury Booths

Full-Stack / Web Developer | Noida, Uttar Pradesh | 2025 – Present | [Live](#)

- Developed and maintained a production website using Next.js, React.js, TypeScript, and Tailwind CSS for a premium event-services business.
- Built reusable, responsive components and SEO-focused pages covering products, services, events, blogs, FAQs, and locations.
- Implemented technical SEO including metadata, canonical URLs, Open Graph tags, XML sitemaps, robots directives, internal linking, and indexation improvements.
- Integrated Schema.org JSON-LD structured data, including LocalBusiness, EventService, Brand, WebSite, and Breadcrumb schemas.
- Integrated GA4, GTM, Meta Pixel, and Google Search Console for traffic, user behavior, marketing attribution, indexing, and search performance monitoring.
- Optimized media and frontend performance using Next.js Image, Cloudinary, Core Web Vitals, LCP/CLS optimization, caching, and responsive delivery.
- Managed ongoing production maintenance, debugging, content updates, technical improvements, and performance optimization.

Silken Glamour

MERN Stack Developer | Noida, Uttar Pradesh | Aug 2024 – Aug 2025 | [Live](#)

- Independently developed and maintained a production MERN application using React.js, Node.js, Express.js, MongoDB, and Mongoose.

- Designed RESTful APIs, MongoDB schemas, and CRUD workflows for core application functionality.
- Implemented JWT authentication and role-based authorization with an admin dashboard for managing appointments, services, and users.
- Built responsive mobile-first interfaces using React.js and Tailwind CSS and handled frontend-backend integration.
- Tested APIs using Postman and resolved application bugs and integration issues.
- Deployed and maintained the application on a VPS with NGINX, managing domain configuration and production maintenance.

Liveupx Pvt. Ltd.

Web Developer | Greater Noida, Uttar Pradesh | May 2024 – Oct 2024

- Developed responsive landing pages and web interfaces using HTML, CSS, and JavaScript.
- Collaborated with designers and backend developers to implement UI/UX requirements.
- Debugged frontend issues using Browser DevTools and used Git/GitHub for version control.

PROJECTS

BaatCheet — Real-Time MERN Chat Application

React.js | Node.js | Express.js | MongoDB | WebSockets | JWT | Tailwind CSS | [Live Demo](#)

- Built a real-time chat application using WebSockets with private and public chat rooms.
- Implemented JWT authentication, secure APIs, and responsive real-time messaging workflows.

Side Hustlers — Instagram Income Calculator

Next.js | Node.js | JavaScript | SEO | [Live Demo](#)

- Developed an application that estimates Instagram influencer earnings using category-based calculation logic.
- Built a responsive Next.js interface with SEO-focused metadata and content structure.

AskAgora — Personal Study Management Platform

React.js | Node.js | Express.js | MongoDB | JWT | [Live Demo](#)

- Built a MERN platform for organizing interview preparation and learning resources.
- Implemented authentication, CRUD operations, and responsive user dashboards.

EDUCATION

IIMT University (AKTU)

Bachelor of Technology (B.Tech) — Computer Science and Engineering
Meerut, Uttar Pradesh | 2021 – 2025
